Step 3 Installation:

1.

Before Installing:

Check fit of clamp on bar. Use rubber insert provided for 1-1/2" bar, remove insert for 1-3/4" bar.

2.

Before installing clamp, make sure the final installed position of the latch shown will face the operator.

3.

Unscrew latch (1)
by twisting latch
until it is just a little
longer than the
hook (2).

4.

Next push and rotate the latch over the end of the hook to seat latch in cradled middle area of hook.

Rotate
Latch to
close.
This will
secure the
rollbar
clamp in
place.

6.

Roll bar clamp installed.

Step 4 Maintenance:

- Clean lenses with mild soap & water or Rosen Lens Cleaner (PN R9000500).
- Do not use ammonia-based products or abrasives to clean lenses.
- Use a lint free or microfiber cloth.
- Check the tension of the pivot joints periodically and tighten if necessary.
- Periodic lubrication every 6 months with 1-2 drops of WD-40 or comparable lubricant to joints shown in step 2.
